

Q: What is an important concept in DBMS related to question number 1?

- A) Option A for question 1
- B) Option B for question 1
- C) Option C for question 1
- D) Option D for question 1

Answer: C

Q: What is an important concept in Java related to question number 2?

- A) Option A for question 2
- B) Option B for question 2
- C) Option C for question 2
- D) Option D for question 2

Answer: D

Q: What is an important concept in Data Structures related to question number 3?

- A) Option A for question 3
- B) Option B for question 3
- C) Option C for question 3
- D) Option D for question 3

Answer: A

Q: What is an important concept in DBMS related to question number 4?

- A) Option A for question 4
- B) Option B for question 4
- C) Option C for question 4
- D) Option D for question 4

Answer: C

Q: What is an important concept in Computer Networks related to question number 5?

- A) Option A for question 5
- B) Option B for question 5
- C) Option C for question 5
- D) Option D for question 5

Answer: D

Q: What is an important concept in Java related to question number 6?

- A) Option A for question 6
- B) Option B for question 6
- C) Option C for question 6
- D) Option D for question 6

Answer: C

Q: What is an important concept in Software Engineering related to question number 7?

- A) Option A for question 7
- B) Option B for question 7
- C) Option C for question 7
- D) Option D for question 7

Answer: D

Q: What is an important concept in Data Structures related to question number 8?

- A) Option A for question 8
- B) Option B for question 8
- C) Option C for question 8
- D) Option D for question 8

Answer: D

Q: What is an important concept in HTML related to question number 9?

- A) Option A for question 9
- B) Option B for question 9
- C) Option C for question 9
- D) Option D for question 9

Answer: D

Q: What is an important concept in Operating System related to question number 10?

- A) Option A for question 10
- B) Option B for question 10
- C) Option C for question 10
- D) Option D for question 10

Answer: D

Q: What is an important concept in DBMS related to question number 11?

- A) Option A for question 11
- B) Option B for question 11
- C) Option C for question 11
- D) Option D for question 11

Answer: A

Q: What is an important concept in Python related to question number 12?

- A) Option A for question 12
- B) Option B for question 12
- C) Option C for question 12
- D) Option D for question 12

Answer: A

Q: What is an important concept in Software Engineering related to question number 13?

- A) Option A for question 13
- B) Option B for question 13
- C) Option C for question 13
- D) Option D for question 13

Answer: D

Q: What is an important concept in Operating System related to question number 14?

- A) Option A for question 14
- B) Option B for question 14
- C) Option C for question 14
- D) Option D for question 14

Answer: A

Q: What is an important concept in Computer Networks related to question number 15?

- A) Option A for question 15
- B) Option B for question 15
- C) Option C for question 15
- D) Option D for question 15

Answer: A

Q: What is an important concept in Data Structures related to question number 16?

- A) Option A for question 16
- B) Option B for question 16
- C) Option C for question 16
- D) Option D for question 16

Answer: A

Q: What is an important concept in OOPs related to question number 17?

- A) Option A for question 17
- B) Option B for question 17
- C) Option C for question 17
- D) Option D for question 17

Answer: D

Q: What is an important concept in Operating System related to question number 18?

- A) Option A for question 18
- B) Option B for question 18
- C) Option C for question 18
- D) Option D for question 18

Answer: B

Q: What is an important concept in Computer Networks related to question number 19?

- A) Option A for question 19
- B) Option B for question 19
- C) Option C for question 19
- D) Option D for question 19

Answer: C

Q: What is an important concept in Java related to question number 20?

- A) Option A for question 20
- B) Option B for question 20
- C) Option C for question 20
- D) Option D for question 20

Answer: B

Q: What is an important concept in Python related to question number 21?

- A) Option A for question 21
- B) Option B for question 21
- C) Option C for question 21
- D) Option D for question 21

Answer: B

Q: What is an important concept in Python related to question number 22?

- A) Option A for question 22
- B) Option B for question 22
- C) Option C for question 22
- D) Option D for question 22

Answer: D

Q: What is an important concept in HTML related to question number 23?

- A) Option A for question 23
- B) Option B for question 23
- C) Option C for question 23
- D) Option D for question 23

Answer: C

Q: What is an important concept in Operating System related to question number 24?

- A) Option A for question 24
- B) Option B for question 24

C) Option C for question 24  
D) Option D for question 24  
Answer: A

Q: What is an important concept in SQL related to question number 25?  
A) Option A for question 25  
B) Option B for question 25  
C) Option C for question 25  
D) Option D for question 25  
Answer: C

Q: What is an important concept in Computer Networks related to question number 26?  
A) Option A for question 26  
B) Option B for question 26  
C) Option C for question 26  
D) Option D for question 26  
Answer: A

Q: What is an important concept in HTML related to question number 27?  
A) Option A for question 27  
B) Option B for question 27  
C) Option C for question 27  
D) Option D for question 27  
Answer: A

Q: What is an important concept in SQL related to question number 28?  
A) Option A for question 28  
B) Option B for question 28  
C) Option C for question 28  
D) Option D for question 28  
Answer: D

Q: What is an important concept in Python related to question number 29?  
A) Option A for question 29  
B) Option B for question 29  
C) Option C for question 29  
D) Option D for question 29  
Answer: D

Q: What is an important concept in Computer Networks related to question number 30?  
A) Option A for question 30  
B) Option B for question 30  
C) Option C for question 30  
D) Option D for question 30  
Answer: A

Q: What is an important concept in HTML related to question number 31?  
A) Option A for question 31  
B) Option B for question 31  
C) Option C for question 31  
D) Option D for question 31  
Answer: C

Q: What is an important concept in SQL related to question number 32?  
A) Option A for question 32  
B) Option B for question 32  
C) Option C for question 32  
D) Option D for question 32  
Answer: B

Q: What is an important concept in Computer Networks related to question number 33?  
A) Option A for question 33  
B) Option B for question 33  
C) Option C for question 33  
D) Option D for question 33  
Answer: A

Q: What is an important concept in Computer Networks related to question number 34?  
A) Option A for question 34  
B) Option B for question 34  
C) Option C for question 34  
D) Option D for question 34  
Answer: A

Q: What is an important concept in OOPs related to question number 35?  
A) Option A for question 35  
B) Option B for question 35  
C) Option C for question 35  
D) Option D for question 35  
Answer: D

Q: What is an important concept in SQL related to question number 36?

- A) Option A for question 36
- B) Option B for question 36
- C) Option C for question 36
- D) Option D for question 36

Answer: D

Q: What is an important concept in Computer Networks related to question number 37?

- A) Option A for question 37
- B) Option B for question 37
- C) Option C for question 37
- D) Option D for question 37

Answer: D

Q: What is an important concept in DBMS related to question number 38?

- A) Option A for question 38
- B) Option B for question 38
- C) Option C for question 38
- D) Option D for question 38

Answer: D

Q: What is an important concept in OOPs related to question number 39?

- A) Option A for question 39
- B) Option B for question 39
- C) Option C for question 39
- D) Option D for question 39

Answer: A

Q: What is an important concept in SQL related to question number 40?

- A) Option A for question 40
- B) Option B for question 40
- C) Option C for question 40
- D) Option D for question 40

Answer: B

Q: What is an important concept in Software Engineering related to question number 41?

- A) Option A for question 41
- B) Option B for question 41
- C) Option C for question 41
- D) Option D for question 41

Answer: D

Q: What is an important concept in Operating System related to question number 42?

- A) Option A for question 42
- B) Option B for question 42
- C) Option C for question 42
- D) Option D for question 42

Answer: D

Q: What is an important concept in OOPs related to question number 43?

- A) Option A for question 43
- B) Option B for question 43
- C) Option C for question 43
- D) Option D for question 43

Answer: B

Q: What is an important concept in DBMS related to question number 44?

- A) Option A for question 44
- B) Option B for question 44
- C) Option C for question 44
- D) Option D for question 44

Answer: A

Q: What is an important concept in Operating System related to question number 45?

- A) Option A for question 45
- B) Option B for question 45
- C) Option C for question 45
- D) Option D for question 45

Answer: A

Q: What is an important concept in Java related to question number 46?

- A) Option A for question 46
- B) Option B for question 46
- C) Option C for question 46
- D) Option D for question 46

Answer: C

Q: What is an important concept in Python related to question number 47?

- A) Option A for question 47
- B) Option B for question 47
- C) Option C for question 47
- D) Option D for question 47

Answer: B

Q: What is an important concept in Operating System related to question number 48?

- A) Option A for question 48
- B) Option B for question 48
- C) Option C for question 48
- D) Option D for question 48

Answer: C

Q: What is an important concept in OOPs related to question number 49?

- A) Option A for question 49
- B) Option B for question 49
- C) Option C for question 49
- D) Option D for question 49

Answer: A

Q: What is an important concept in Java related to question number 50?

- A) Option A for question 50
- B) Option B for question 50
- C) Option C for question 50
- D) Option D for question 50

Answer: A

Q: What is an important concept in Software Engineering related to question number 51?

- A) Option A for question 51
- B) Option B for question 51
- C) Option C for question 51
- D) Option D for question 51

Answer: D

Q: What is an important concept in DBMS related to question number 52?

- A) Option A for question 52
- B) Option B for question 52
- C) Option C for question 52
- D) Option D for question 52

Answer: D

Q: What is an important concept in SQL related to question number 53?

- A) Option A for question 53
- B) Option B for question 53
- C) Option C for question 53
- D) Option D for question 53

Answer: B

Q: What is an important concept in Software Engineering related to question number 54?

- A) Option A for question 54
- B) Option B for question 54
- C) Option C for question 54
- D) Option D for question 54

Answer: D

Q: What is an important concept in Operating System related to question number 55?

- A) Option A for question 55
- B) Option B for question 55
- C) Option C for question 55
- D) Option D for question 55

Answer: A

Q: What is an important concept in Python related to question number 56?

- A) Option A for question 56
- B) Option B for question 56
- C) Option C for question 56
- D) Option D for question 56

Answer: D

Q: What is an important concept in SQL related to question number 57?

- A) Option A for question 57
- B) Option B for question 57
- C) Option C for question 57
- D) Option D for question 57

Answer: A

Q: What is an important concept in Data Structures related to question number 58?

- A) Option A for question 58
- B) Option B for question 58
- C) Option C for question 58
- D) Option D for question 58

Answer: A

Q: What is an important concept in Operating System related to question number 59?

- A) Option A for question 59
- B) Option B for question 59
- C) Option C for question 59

D) Option D for question 59  
Answer: B

Q: What is an important concept in Java related to question number 60?  
A) Option A for question 60  
B) Option B for question 60  
C) Option C for question 60  
D) Option D for question 60  
Answer: A

Q: What is an important concept in DBMS related to question number 61?  
A) Option A for question 61  
B) Option B for question 61  
C) Option C for question 61  
D) Option D for question 61  
Answer: C

Q: What is an important concept in Computer Networks related to question number 62?  
A) Option A for question 62  
B) Option B for question 62  
C) Option C for question 62  
D) Option D for question 62  
Answer: B

Q: What is an important concept in HTML related to question number 63?  
A) Option A for question 63  
B) Option B for question 63  
C) Option C for question 63  
D) Option D for question 63  
Answer: A

Q: What is an important concept in OOPs related to question number 64?  
A) Option A for question 64  
B) Option B for question 64  
C) Option C for question 64  
D) Option D for question 64  
Answer: C

Q: What is an important concept in DBMS related to question number 65?  
A) Option A for question 65  
B) Option B for question 65  
C) Option C for question 65  
D) Option D for question 65  
Answer: A

Q: What is an important concept in Computer Networks related to question number 66?  
A) Option A for question 66  
B) Option B for question 66  
C) Option C for question 66  
D) Option D for question 66  
Answer: A

Q: What is an important concept in Data Structures related to question number 67?  
A) Option A for question 67  
B) Option B for question 67  
C) Option C for question 67  
D) Option D for question 67  
Answer: A

Q: What is an important concept in SQL related to question number 68?  
A) Option A for question 68  
B) Option B for question 68  
C) Option C for question 68  
D) Option D for question 68  
Answer: C

Q: What is an important concept in HTML related to question number 69?  
A) Option A for question 69  
B) Option B for question 69  
C) Option C for question 69  
D) Option D for question 69  
Answer: C

Q: What is an important concept in Data Structures related to question number 70?  
A) Option A for question 70  
B) Option B for question 70  
C) Option C for question 70  
D) Option D for question 70  
Answer: D

Q: What is an important concept in DBMS related to question number 71?  
A) Option A for question 71

B) Option B for question 71  
C) Option C for question 71  
D) Option D for question 71  
Answer: C

Q: What is an important concept in HTML related to question number 72?  
A) Option A for question 72  
B) Option B for question 72  
C) Option C for question 72  
D) Option D for question 72  
Answer: C

Q: What is an important concept in Computer Networks related to question number 73?  
A) Option A for question 73  
B) Option B for question 73  
C) Option C for question 73  
D) Option D for question 73  
Answer: D

Q: What is an important concept in Computer Networks related to question number 74?  
A) Option A for question 74  
B) Option B for question 74  
C) Option C for question 74  
D) Option D for question 74  
Answer: C

Q: What is an important concept in Operating System related to question number 75?  
A) Option A for question 75  
B) Option B for question 75  
C) Option C for question 75  
D) Option D for question 75  
Answer: B

Q: What is an important concept in Software Engineering related to question number 76?  
A) Option A for question 76  
B) Option B for question 76  
C) Option C for question 76  
D) Option D for question 76  
Answer: A

Q: What is an important concept in HTML related to question number 77?  
A) Option A for question 77  
B) Option B for question 77  
C) Option C for question 77  
D) Option D for question 77  
Answer: B

Q: What is an important concept in Computer Networks related to question number 78?  
A) Option A for question 78  
B) Option B for question 78  
C) Option C for question 78  
D) Option D for question 78  
Answer: A

Q: What is an important concept in Java related to question number 79?  
A) Option A for question 79  
B) Option B for question 79  
C) Option C for question 79  
D) Option D for question 79  
Answer: C

Q: What is an important concept in Data Structures related to question number 80?  
A) Option A for question 80  
B) Option B for question 80  
C) Option C for question 80  
D) Option D for question 80  
Answer: C

Q: What is an important concept in SQL related to question number 81?  
A) Option A for question 81  
B) Option B for question 81  
C) Option C for question 81  
D) Option D for question 81  
Answer: C

Q: What is an important concept in Computer Networks related to question number 82?  
A) Option A for question 82  
B) Option B for question 82  
C) Option C for question 82  
D) Option D for question 82  
Answer: C

Q: What is an important concept in Computer Networks related to question number 83?

- A) Option A for question 83
- B) Option B for question 83
- C) Option C for question 83
- D) Option D for question 83

Answer: D

Q: What is an important concept in Java related to question number 84?

- A) Option A for question 84
- B) Option B for question 84
- C) Option C for question 84
- D) Option D for question 84

Answer: B

Q: What is an important concept in Python related to question number 85?

- A) Option A for question 85
- B) Option B for question 85
- C) Option C for question 85
- D) Option D for question 85

Answer: B

Q: What is an important concept in OOPs related to question number 86?

- A) Option A for question 86
- B) Option B for question 86
- C) Option C for question 86
- D) Option D for question 86

Answer: D

Q: What is an important concept in Java related to question number 87?

- A) Option A for question 87
- B) Option B for question 87
- C) Option C for question 87
- D) Option D for question 87

Answer: A

Q: What is an important concept in OOPs related to question number 88?

- A) Option A for question 88
- B) Option B for question 88
- C) Option C for question 88
- D) Option D for question 88

Answer: B

Q: What is an important concept in Software Engineering related to question number 89?

- A) Option A for question 89
- B) Option B for question 89
- C) Option C for question 89
- D) Option D for question 89

Answer: D

Q: What is an important concept in Software Engineering related to question number 90?

- A) Option A for question 90
- B) Option B for question 90
- C) Option C for question 90
- D) Option D for question 90

Answer: A

Q: What is an important concept in Computer Networks related to question number 91?

- A) Option A for question 91
- B) Option B for question 91
- C) Option C for question 91
- D) Option D for question 91

Answer: D

Q: What is an important concept in Data Structures related to question number 92?

- A) Option A for question 92
- B) Option B for question 92
- C) Option C for question 92
- D) Option D for question 92

Answer: D

Q: What is an important concept in DBMS related to question number 93?

- A) Option A for question 93
- B) Option B for question 93
- C) Option C for question 93
- D) Option D for question 93

Answer: C

Q: What is an important concept in Operating System related to question number 94?

- A) Option A for question 94
- B) Option B for question 94
- C) Option C for question 94
- D) Option D for question 94

Answer: A

Q: What is an important concept in Java related to question number 95?

- A) Option A for question 95
- B) Option B for question 95
- C) Option C for question 95
- D) Option D for question 95

Answer: C

Q: What is an important concept in Software Engineering related to question number 96?

- A) Option A for question 96
- B) Option B for question 96
- C) Option C for question 96
- D) Option D for question 96

Answer: C

Q: What is an important concept in OOPs related to question number 97?

- A) Option A for question 97
- B) Option B for question 97
- C) Option C for question 97
- D) Option D for question 97

Answer: D

Q: What is an important concept in Operating System related to question number 98?

- A) Option A for question 98
- B) Option B for question 98
- C) Option C for question 98
- D) Option D for question 98

Answer: A

Q: What is an important concept in Operating System related to question number 99?

- A) Option A for question 99
- B) Option B for question 99
- C) Option C for question 99
- D) Option D for question 99

Answer: D

Q: What is an important concept in OOPs related to question number 100?

- A) Option A for question 100
- B) Option B for question 100
- C) Option C for question 100
- D) Option D for question 100

Answer: D

Q: What is an important concept in HTML related to question number 101?

- A) Option A for question 101
- B) Option B for question 101
- C) Option C for question 101
- D) Option D for question 101

Answer: C

Q: What is an important concept in DBMS related to question number 102?

- A) Option A for question 102
- B) Option B for question 102
- C) Option C for question 102
- D) Option D for question 102

Answer: A

Q: What is an important concept in Computer Networks related to question number 103?

- A) Option A for question 103
- B) Option B for question 103
- C) Option C for question 103
- D) Option D for question 103

Answer: A

Q: What is an important concept in Software Engineering related to question number 104?

- A) Option A for question 104
- B) Option B for question 104
- C) Option C for question 104
- D) Option D for question 104

Answer: B

Q: What is an important concept in Software Engineering related to question number 105?

- A) Option A for question 105
- B) Option B for question 105
- C) Option C for question 105
- D) Option D for question 105

Answer: C

Q: What is an important concept in Java related to question number 106?

- A) Option A for question 106
- B) Option B for question 106

C) Option C for question 106  
D) Option D for question 106  
Answer: A

Q: What is an important concept in DBMS related to question number 107?  
A) Option A for question 107  
B) Option B for question 107  
C) Option C for question 107  
D) Option D for question 107  
Answer: B

Q: What is an important concept in Operating System related to question number 108?  
A) Option A for question 108  
B) Option B for question 108  
C) Option C for question 108  
D) Option D for question 108  
Answer: B

Q: What is an important concept in Operating System related to question number 109?  
A) Option A for question 109  
B) Option B for question 109  
C) Option C for question 109  
D) Option D for question 109  
Answer: B

Q: What is an important concept in Computer Networks related to question number 110?  
A) Option A for question 110  
B) Option B for question 110  
C) Option C for question 110  
D) Option D for question 110  
Answer: A

Q: What is an important concept in OOPs related to question number 111?  
A) Option A for question 111  
B) Option B for question 111  
C) Option C for question 111  
D) Option D for question 111  
Answer: B

Q: What is an important concept in HTML related to question number 112?  
A) Option A for question 112  
B) Option B for question 112  
C) Option C for question 112  
D) Option D for question 112  
Answer: C

Q: What is an important concept in Data Structures related to question number 113?  
A) Option A for question 113  
B) Option B for question 113  
C) Option C for question 113  
D) Option D for question 113  
Answer: C

Q: What is an important concept in Computer Networks related to question number 114?  
A) Option A for question 114  
B) Option B for question 114  
C) Option C for question 114  
D) Option D for question 114  
Answer: D

Q: What is an important concept in Operating System related to question number 115?  
A) Option A for question 115  
B) Option B for question 115  
C) Option C for question 115  
D) Option D for question 115  
Answer: C

Q: What is an important concept in Software Engineering related to question number 116?  
A) Option A for question 116  
B) Option B for question 116  
C) Option C for question 116  
D) Option D for question 116  
Answer: A

Q: What is an important concept in SQL related to question number 117?  
A) Option A for question 117  
B) Option B for question 117  
C) Option C for question 117  
D) Option D for question 117  
Answer: B

Q: What is an important concept in OOPs related to question number 118?

- A) Option A for question 118
- B) Option B for question 118
- C) Option C for question 118
- D) Option D for question 118

Answer: D

Q: What is an important concept in OOPs related to question number 119?

- A) Option A for question 119
- B) Option B for question 119
- C) Option C for question 119
- D) Option D for question 119

Answer: A

Q: What is an important concept in Python related to question number 120?

- A) Option A for question 120
- B) Option B for question 120
- C) Option C for question 120
- D) Option D for question 120

Answer: C

Q: What is an important concept in Computer Networks related to question number 121?

- A) Option A for question 121
- B) Option B for question 121
- C) Option C for question 121
- D) Option D for question 121

Answer: D

Q: What is an important concept in Computer Networks related to question number 122?

- A) Option A for question 122
- B) Option B for question 122
- C) Option C for question 122
- D) Option D for question 122

Answer: C

Q: What is an important concept in SQL related to question number 123?

- A) Option A for question 123
- B) Option B for question 123
- C) Option C for question 123
- D) Option D for question 123

Answer: B

Q: What is an important concept in Software Engineering related to question number 124?

- A) Option A for question 124
- B) Option B for question 124
- C) Option C for question 124
- D) Option D for question 124

Answer: A

Q: What is an important concept in Python related to question number 125?

- A) Option A for question 125
- B) Option B for question 125
- C) Option C for question 125
- D) Option D for question 125

Answer: C

Q: What is an important concept in DBMS related to question number 126?

- A) Option A for question 126
- B) Option B for question 126
- C) Option C for question 126
- D) Option D for question 126

Answer: D

Q: What is an important concept in Operating System related to question number 127?

- A) Option A for question 127
- B) Option B for question 127
- C) Option C for question 127
- D) Option D for question 127

Answer: D

Q: What is an important concept in Computer Networks related to question number 128?

- A) Option A for question 128
- B) Option B for question 128
- C) Option C for question 128
- D) Option D for question 128

Answer: D

Q: What is an important concept in Computer Networks related to question number 129?

- A) Option A for question 129
- B) Option B for question 129
- C) Option C for question 129
- D) Option D for question 129

Answer: D

Q: What is an important concept in Python related to question number 130?

- A) Option A for question 130
- B) Option B for question 130
- C) Option C for question 130
- D) Option D for question 130

Answer: A

Q: What is an important concept in HTML related to question number 131?

- A) Option A for question 131
- B) Option B for question 131
- C) Option C for question 131
- D) Option D for question 131

Answer: D

Q: What is an important concept in Computer Networks related to question number 132?

- A) Option A for question 132
- B) Option B for question 132
- C) Option C for question 132
- D) Option D for question 132

Answer: B

Q: What is an important concept in DBMS related to question number 133?

- A) Option A for question 133
- B) Option B for question 133
- C) Option C for question 133
- D) Option D for question 133

Answer: D

Q: What is an important concept in SQL related to question number 134?

- A) Option A for question 134
- B) Option B for question 134
- C) Option C for question 134
- D) Option D for question 134

Answer: C

Q: What is an important concept in SQL related to question number 135?

- A) Option A for question 135
- B) Option B for question 135
- C) Option C for question 135
- D) Option D for question 135

Answer: D

Q: What is an important concept in Software Engineering related to question number 136?

- A) Option A for question 136
- B) Option B for question 136
- C) Option C for question 136
- D) Option D for question 136

Answer: C

Q: What is an important concept in OOPs related to question number 137?

- A) Option A for question 137
- B) Option B for question 137
- C) Option C for question 137
- D) Option D for question 137

Answer: D

Q: What is an important concept in Software Engineering related to question number 138?

- A) Option A for question 138
- B) Option B for question 138
- C) Option C for question 138
- D) Option D for question 138

Answer: A

Q: What is an important concept in Software Engineering related to question number 139?

- A) Option A for question 139
- B) Option B for question 139
- C) Option C for question 139
- D) Option D for question 139

Answer: C

Q: What is an important concept in OOPs related to question number 140?

- A) Option A for question 140
- B) Option B for question 140
- C) Option C for question 140
- D) Option D for question 140

Answer: D

Q: What is an important concept in HTML related to question number 141?

- A) Option A for question 141
- B) Option B for question 141
- C) Option C for question 141

D) Option D for question 141  
Answer: C

Q: What is an important concept in HTML related to question number 142?  
A) Option A for question 142  
B) Option B for question 142  
C) Option C for question 142  
D) Option D for question 142  
Answer: B

Q: What is an important concept in Software Engineering related to question number 143?  
A) Option A for question 143  
B) Option B for question 143  
C) Option C for question 143  
D) Option D for question 143  
Answer: D

Q: What is an important concept in SQL related to question number 144?  
A) Option A for question 144  
B) Option B for question 144  
C) Option C for question 144  
D) Option D for question 144  
Answer: B

Q: What is an important concept in Computer Networks related to question number 145?  
A) Option A for question 145  
B) Option B for question 145  
C) Option C for question 145  
D) Option D for question 145  
Answer: C

Q: What is an important concept in OOPs related to question number 146?  
A) Option A for question 146  
B) Option B for question 146  
C) Option C for question 146  
D) Option D for question 146  
Answer: B

Q: What is an important concept in Computer Networks related to question number 147?  
A) Option A for question 147  
B) Option B for question 147  
C) Option C for question 147  
D) Option D for question 147  
Answer: D

Q: What is an important concept in Software Engineering related to question number 148?  
A) Option A for question 148  
B) Option B for question 148  
C) Option C for question 148  
D) Option D for question 148  
Answer: B

Q: What is an important concept in DBMS related to question number 149?  
A) Option A for question 149  
B) Option B for question 149  
C) Option C for question 149  
D) Option D for question 149  
Answer: A

Q: What is an important concept in OOPs related to question number 150?  
A) Option A for question 150  
B) Option B for question 150  
C) Option C for question 150  
D) Option D for question 150  
Answer: A

Q: What is an important concept in Operating System related to question number 151?  
A) Option A for question 151  
B) Option B for question 151  
C) Option C for question 151  
D) Option D for question 151  
Answer: A

Q: What is an important concept in OOPs related to question number 152?  
A) Option A for question 152  
B) Option B for question 152  
C) Option C for question 152  
D) Option D for question 152  
Answer: A

Q: What is an important concept in HTML related to question number 153?  
A) Option A for question 153

B) Option B for question 153  
C) Option C for question 153  
D) Option D for question 153  
Answer: C

Q: What is an important concept in Software Engineering related to question number 154?  
A) Option A for question 154  
B) Option B for question 154  
C) Option C for question 154  
D) Option D for question 154  
Answer: B

Q: What is an important concept in Java related to question number 155?  
A) Option A for question 155  
B) Option B for question 155  
C) Option C for question 155  
D) Option D for question 155  
Answer: B

Q: What is an important concept in SQL related to question number 156?  
A) Option A for question 156  
B) Option B for question 156  
C) Option C for question 156  
D) Option D for question 156  
Answer: B

Q: What is an important concept in Data Structures related to question number 157?  
A) Option A for question 157  
B) Option B for question 157  
C) Option C for question 157  
D) Option D for question 157  
Answer: A

Q: What is an important concept in Computer Networks related to question number 158?  
A) Option A for question 158  
B) Option B for question 158  
C) Option C for question 158  
D) Option D for question 158  
Answer: D

Q: What is an important concept in DBMS related to question number 159?  
A) Option A for question 159  
B) Option B for question 159  
C) Option C for question 159  
D) Option D for question 159  
Answer: A

Q: What is an important concept in Python related to question number 160?  
A) Option A for question 160  
B) Option B for question 160  
C) Option C for question 160  
D) Option D for question 160  
Answer: C

Q: What is an important concept in Java related to question number 161?  
A) Option A for question 161  
B) Option B for question 161  
C) Option C for question 161  
D) Option D for question 161  
Answer: A

Q: What is an important concept in SQL related to question number 162?  
A) Option A for question 162  
B) Option B for question 162  
C) Option C for question 162  
D) Option D for question 162  
Answer: A

Q: What is an important concept in OOPs related to question number 163?  
A) Option A for question 163  
B) Option B for question 163  
C) Option C for question 163  
D) Option D for question 163  
Answer: D

Q: What is an important concept in Java related to question number 164?  
A) Option A for question 164  
B) Option B for question 164  
C) Option C for question 164  
D) Option D for question 164  
Answer: A

Q: What is an important concept in Data Structures related to question number 165?

- A) Option A for question 165
- B) Option B for question 165
- C) Option C for question 165
- D) Option D for question 165

Answer: C

Q: What is an important concept in Data Structures related to question number 166?

- A) Option A for question 166
- B) Option B for question 166
- C) Option C for question 166
- D) Option D for question 166

Answer: B

Q: What is an important concept in Python related to question number 167?

- A) Option A for question 167
- B) Option B for question 167
- C) Option C for question 167
- D) Option D for question 167

Answer: B

Q: What is an important concept in Software Engineering related to question number 168?

- A) Option A for question 168
- B) Option B for question 168
- C) Option C for question 168
- D) Option D for question 168

Answer: B

Q: What is an important concept in Operating System related to question number 169?

- A) Option A for question 169
- B) Option B for question 169
- C) Option C for question 169
- D) Option D for question 169

Answer: D

Q: What is an important concept in Java related to question number 170?

- A) Option A for question 170
- B) Option B for question 170
- C) Option C for question 170
- D) Option D for question 170

Answer: C

Q: What is an important concept in Operating System related to question number 171?

- A) Option A for question 171
- B) Option B for question 171
- C) Option C for question 171
- D) Option D for question 171

Answer: A

Q: What is an important concept in Computer Networks related to question number 172?

- A) Option A for question 172
- B) Option B for question 172
- C) Option C for question 172
- D) Option D for question 172

Answer: C

Q: What is an important concept in Operating System related to question number 173?

- A) Option A for question 173
- B) Option B for question 173
- C) Option C for question 173
- D) Option D for question 173

Answer: D

Q: What is an important concept in Computer Networks related to question number 174?

- A) Option A for question 174
- B) Option B for question 174
- C) Option C for question 174
- D) Option D for question 174

Answer: A

Q: What is an important concept in Software Engineering related to question number 175?

- A) Option A for question 175
- B) Option B for question 175
- C) Option C for question 175
- D) Option D for question 175

Answer: C

Q: What is an important concept in Python related to question number 176?

- A) Option A for question 176
- B) Option B for question 176
- C) Option C for question 176
- D) Option D for question 176

Answer: A

Q: What is an important concept in Python related to question number 177?

- A) Option A for question 177
- B) Option B for question 177
- C) Option C for question 177
- D) Option D for question 177

Answer: A

Q: What is an important concept in Python related to question number 178?

- A) Option A for question 178
- B) Option B for question 178
- C) Option C for question 178
- D) Option D for question 178

Answer: B

Q: What is an important concept in Computer Networks related to question number 179?

- A) Option A for question 179
- B) Option B for question 179
- C) Option C for question 179
- D) Option D for question 179

Answer: C

Q: What is an important concept in Data Structures related to question number 180?

- A) Option A for question 180
- B) Option B for question 180
- C) Option C for question 180
- D) Option D for question 180

Answer: B

Q: What is an important concept in Python related to question number 181?

- A) Option A for question 181
- B) Option B for question 181
- C) Option C for question 181
- D) Option D for question 181

Answer: A

Q: What is an important concept in Data Structures related to question number 182?

- A) Option A for question 182
- B) Option B for question 182
- C) Option C for question 182
- D) Option D for question 182

Answer: A

Q: What is an important concept in DBMS related to question number 183?

- A) Option A for question 183
- B) Option B for question 183
- C) Option C for question 183
- D) Option D for question 183

Answer: D

Q: What is an important concept in OOPs related to question number 184?

- A) Option A for question 184
- B) Option B for question 184
- C) Option C for question 184
- D) Option D for question 184

Answer: A

Q: What is an important concept in DBMS related to question number 185?

- A) Option A for question 185
- B) Option B for question 185
- C) Option C for question 185
- D) Option D for question 185

Answer: C

Q: What is an important concept in Python related to question number 186?

- A) Option A for question 186
- B) Option B for question 186
- C) Option C for question 186
- D) Option D for question 186

Answer: C

Q: What is an important concept in HTML related to question number 187?

- A) Option A for question 187
- B) Option B for question 187
- C) Option C for question 187
- D) Option D for question 187

Answer: D

Q: What is an important concept in Operating System related to question number 188?

- A) Option A for question 188
- B) Option B for question 188

C) Option C for question 188  
D) Option D for question 188  
Answer: A

Q: What is an important concept in DBMS related to question number 189?  
A) Option A for question 189  
B) Option B for question 189  
C) Option C for question 189  
D) Option D for question 189  
Answer: D

Q: What is an important concept in Java related to question number 190?  
A) Option A for question 190  
B) Option B for question 190  
C) Option C for question 190  
D) Option D for question 190  
Answer: B

Q: What is an important concept in DBMS related to question number 191?  
A) Option A for question 191  
B) Option B for question 191  
C) Option C for question 191  
D) Option D for question 191  
Answer: B

Q: What is an important concept in Computer Networks related to question number 192?  
A) Option A for question 192  
B) Option B for question 192  
C) Option C for question 192  
D) Option D for question 192  
Answer: B

Q: What is an important concept in Computer Networks related to question number 193?  
A) Option A for question 193  
B) Option B for question 193  
C) Option C for question 193  
D) Option D for question 193  
Answer: D

Q: What is an important concept in Operating System related to question number 194?  
A) Option A for question 194  
B) Option B for question 194  
C) Option C for question 194  
D) Option D for question 194  
Answer: B

Q: What is an important concept in Java related to question number 195?  
A) Option A for question 195  
B) Option B for question 195  
C) Option C for question 195  
D) Option D for question 195  
Answer: C

Q: What is an important concept in Data Structures related to question number 196?  
A) Option A for question 196  
B) Option B for question 196  
C) Option C for question 196  
D) Option D for question 196  
Answer: B

Q: What is an important concept in Software Engineering related to question number 197?  
A) Option A for question 197  
B) Option B for question 197  
C) Option C for question 197  
D) Option D for question 197  
Answer: A

Q: What is an important concept in Software Engineering related to question number 198?  
A) Option A for question 198  
B) Option B for question 198  
C) Option C for question 198  
D) Option D for question 198  
Answer: C

Q: What is an important concept in Software Engineering related to question number 199?  
A) Option A for question 199  
B) Option B for question 199  
C) Option C for question 199  
D) Option D for question 199  
Answer: C

Q: What is an important concept in Java related to question number 200?

- A) Option A for question 200
- B) Option B for question 200
- C) Option C for question 200
- D) Option D for question 200

Answer: B

Q: What is an important concept in Computer Networks related to question number 201?

- A) Option A for question 201
- B) Option B for question 201
- C) Option C for question 201
- D) Option D for question 201

Answer: D

Q: What is an important concept in Data Structures related to question number 202?

- A) Option A for question 202
- B) Option B for question 202
- C) Option C for question 202
- D) Option D for question 202

Answer: A

Q: What is an important concept in Data Structures related to question number 203?

- A) Option A for question 203
- B) Option B for question 203
- C) Option C for question 203
- D) Option D for question 203

Answer: B

Q: What is an important concept in Python related to question number 204?

- A) Option A for question 204
- B) Option B for question 204
- C) Option C for question 204
- D) Option D for question 204

Answer: D

Q: What is an important concept in Java related to question number 205?

- A) Option A for question 205
- B) Option B for question 205
- C) Option C for question 205
- D) Option D for question 205

Answer: C

Q: What is an important concept in DBMS related to question number 206?

- A) Option A for question 206
- B) Option B for question 206
- C) Option C for question 206
- D) Option D for question 206

Answer: B

Q: What is an important concept in OOPs related to question number 207?

- A) Option A for question 207
- B) Option B for question 207
- C) Option C for question 207
- D) Option D for question 207

Answer: C

Q: What is an important concept in SQL related to question number 208?

- A) Option A for question 208
- B) Option B for question 208
- C) Option C for question 208
- D) Option D for question 208

Answer: B

Q: What is an important concept in OOPs related to question number 209?

- A) Option A for question 209
- B) Option B for question 209
- C) Option C for question 209
- D) Option D for question 209

Answer: A

Q: What is an important concept in Java related to question number 210?

- A) Option A for question 210
- B) Option B for question 210
- C) Option C for question 210
- D) Option D for question 210

Answer: D

Q: What is an important concept in Computer Networks related to question number 211?

- A) Option A for question 211
- B) Option B for question 211
- C) Option C for question 211
- D) Option D for question 211

Answer: C

Q: What is an important concept in SQL related to question number 212?

- A) Option A for question 212
- B) Option B for question 212
- C) Option C for question 212
- D) Option D for question 212

Answer: A

Q: What is an important concept in Operating System related to question number 213?

- A) Option A for question 213
- B) Option B for question 213
- C) Option C for question 213
- D) Option D for question 213

Answer: B

Q: What is an important concept in Computer Networks related to question number 214?

- A) Option A for question 214
- B) Option B for question 214
- C) Option C for question 214
- D) Option D for question 214

Answer: B

Q: What is an important concept in Data Structures related to question number 215?

- A) Option A for question 215
- B) Option B for question 215
- C) Option C for question 215
- D) Option D for question 215

Answer: D

Q: What is an important concept in Data Structures related to question number 216?

- A) Option A for question 216
- B) Option B for question 216
- C) Option C for question 216
- D) Option D for question 216

Answer: A

Q: What is an important concept in Computer Networks related to question number 217?

- A) Option A for question 217
- B) Option B for question 217
- C) Option C for question 217
- D) Option D for question 217

Answer: C

Q: What is an important concept in HTML related to question number 218?

- A) Option A for question 218
- B) Option B for question 218
- C) Option C for question 218
- D) Option D for question 218

Answer: C

Q: What is an important concept in DBMS related to question number 219?

- A) Option A for question 219
- B) Option B for question 219
- C) Option C for question 219
- D) Option D for question 219

Answer: D

Q: What is an important concept in Data Structures related to question number 220?

- A) Option A for question 220
- B) Option B for question 220
- C) Option C for question 220
- D) Option D for question 220

Answer: B

Q: What is an important concept in OOPs related to question number 221?

- A) Option A for question 221
- B) Option B for question 221
- C) Option C for question 221
- D) Option D for question 221

Answer: C

Q: What is an important concept in HTML related to question number 222?

- A) Option A for question 222
- B) Option B for question 222
- C) Option C for question 222
- D) Option D for question 222

Answer: D

Q: What is an important concept in Operating System related to question number 223?

- A) Option A for question 223
- B) Option B for question 223
- C) Option C for question 223

D) Option D for question 223  
Answer: D

Q: What is an important concept in DBMS related to question number 224?  
A) Option A for question 224  
B) Option B for question 224  
C) Option C for question 224  
D) Option D for question 224  
Answer: B

Q: What is an important concept in DBMS related to question number 225?  
A) Option A for question 225  
B) Option B for question 225  
C) Option C for question 225  
D) Option D for question 225  
Answer: B

Q: What is an important concept in SQL related to question number 226?  
A) Option A for question 226  
B) Option B for question 226  
C) Option C for question 226  
D) Option D for question 226  
Answer: A

Q: What is an important concept in SQL related to question number 227?  
A) Option A for question 227  
B) Option B for question 227  
C) Option C for question 227  
D) Option D for question 227  
Answer: B

Q: What is an important concept in Data Structures related to question number 228?  
A) Option A for question 228  
B) Option B for question 228  
C) Option C for question 228  
D) Option D for question 228  
Answer: B

Q: What is an important concept in HTML related to question number 229?  
A) Option A for question 229  
B) Option B for question 229  
C) Option C for question 229  
D) Option D for question 229  
Answer: D

Q: What is an important concept in HTML related to question number 230?  
A) Option A for question 230  
B) Option B for question 230  
C) Option C for question 230  
D) Option D for question 230  
Answer: B

Q: What is an important concept in Python related to question number 231?  
A) Option A for question 231  
B) Option B for question 231  
C) Option C for question 231  
D) Option D for question 231  
Answer: C

Q: What is an important concept in SQL related to question number 232?  
A) Option A for question 232  
B) Option B for question 232  
C) Option C for question 232  
D) Option D for question 232  
Answer: C

Q: What is an important concept in Java related to question number 233?  
A) Option A for question 233  
B) Option B for question 233  
C) Option C for question 233  
D) Option D for question 233  
Answer: C

Q: What is an important concept in Python related to question number 234?  
A) Option A for question 234  
B) Option B for question 234  
C) Option C for question 234  
D) Option D for question 234  
Answer: A

Q: What is an important concept in Computer Networks related to question number 235?  
A) Option A for question 235

B) Option B for question 235  
C) Option C for question 235  
D) Option D for question 235  
Answer: D

Q: What is an important concept in Software Engineering related to question number 236?  
A) Option A for question 236  
B) Option B for question 236  
C) Option C for question 236  
D) Option D for question 236  
Answer: A

Q: What is an important concept in HTML related to question number 237?  
A) Option A for question 237  
B) Option B for question 237  
C) Option C for question 237  
D) Option D for question 237  
Answer: A

Q: What is an important concept in OOPs related to question number 238?  
A) Option A for question 238  
B) Option B for question 238  
C) Option C for question 238  
D) Option D for question 238  
Answer: B

Q: What is an important concept in Computer Networks related to question number 239?  
A) Option A for question 239  
B) Option B for question 239  
C) Option C for question 239  
D) Option D for question 239  
Answer: D

Q: What is an important concept in HTML related to question number 240?  
A) Option A for question 240  
B) Option B for question 240  
C) Option C for question 240  
D) Option D for question 240  
Answer: D

Q: What is an important concept in Software Engineering related to question number 241?  
A) Option A for question 241  
B) Option B for question 241  
C) Option C for question 241  
D) Option D for question 241  
Answer: C

Q: What is an important concept in DBMS related to question number 242?  
A) Option A for question 242  
B) Option B for question 242  
C) Option C for question 242  
D) Option D for question 242  
Answer: B

Q: What is an important concept in DBMS related to question number 243?  
A) Option A for question 243  
B) Option B for question 243  
C) Option C for question 243  
D) Option D for question 243  
Answer: B

Q: What is an important concept in Python related to question number 244?  
A) Option A for question 244  
B) Option B for question 244  
C) Option C for question 244  
D) Option D for question 244  
Answer: B

Q: What is an important concept in Computer Networks related to question number 245?  
A) Option A for question 245  
B) Option B for question 245  
C) Option C for question 245  
D) Option D for question 245  
Answer: D

Q: What is an important concept in DBMS related to question number 246?  
A) Option A for question 246  
B) Option B for question 246  
C) Option C for question 246  
D) Option D for question 246  
Answer: A

Q: What is an important concept in Java related to question number 247?

- A) Option A for question 247
- B) Option B for question 247
- C) Option C for question 247
- D) Option D for question 247

Answer: A

Q: What is an important concept in Python related to question number 248?

- A) Option A for question 248
- B) Option B for question 248
- C) Option C for question 248
- D) Option D for question 248

Answer: A

Q: What is an important concept in Java related to question number 249?

- A) Option A for question 249
- B) Option B for question 249
- C) Option C for question 249
- D) Option D for question 249

Answer: D

Q: What is an important concept in Java related to question number 250?

- A) Option A for question 250
- B) Option B for question 250
- C) Option C for question 250
- D) Option D for question 250

Answer: D

Q: What is an important concept in SQL related to question number 251?

- A) Option A for question 251
- B) Option B for question 251
- C) Option C for question 251
- D) Option D for question 251

Answer: C

Q: What is an important concept in DBMS related to question number 252?

- A) Option A for question 252
- B) Option B for question 252
- C) Option C for question 252
- D) Option D for question 252

Answer: D

Q: What is an important concept in Operating System related to question number 253?

- A) Option A for question 253
- B) Option B for question 253
- C) Option C for question 253
- D) Option D for question 253

Answer: D

Q: What is an important concept in Data Structures related to question number 254?

- A) Option A for question 254
- B) Option B for question 254
- C) Option C for question 254
- D) Option D for question 254

Answer: D

Q: What is an important concept in Data Structures related to question number 255?

- A) Option A for question 255
- B) Option B for question 255
- C) Option C for question 255
- D) Option D for question 255

Answer: A

Q: What is an important concept in Operating System related to question number 256?

- A) Option A for question 256
- B) Option B for question 256
- C) Option C for question 256
- D) Option D for question 256

Answer: C

Q: What is an important concept in SQL related to question number 257?

- A) Option A for question 257
- B) Option B for question 257
- C) Option C for question 257
- D) Option D for question 257

Answer: D

Q: What is an important concept in DBMS related to question number 258?

- A) Option A for question 258
- B) Option B for question 258
- C) Option C for question 258
- D) Option D for question 258

Answer: A

Q: What is an important concept in Software Engineering related to question number 259?

- A) Option A for question 259
- B) Option B for question 259
- C) Option C for question 259
- D) Option D for question 259

Answer: B

Q: What is an important concept in Computer Networks related to question number 260?

- A) Option A for question 260
- B) Option B for question 260
- C) Option C for question 260
- D) Option D for question 260

Answer: C

Q: What is an important concept in Software Engineering related to question number 261?

- A) Option A for question 261
- B) Option B for question 261
- C) Option C for question 261
- D) Option D for question 261

Answer: B

Q: What is an important concept in OOPs related to question number 262?

- A) Option A for question 262
- B) Option B for question 262
- C) Option C for question 262
- D) Option D for question 262

Answer: C

Q: What is an important concept in HTML related to question number 263?

- A) Option A for question 263
- B) Option B for question 263
- C) Option C for question 263
- D) Option D for question 263

Answer: C

Q: What is an important concept in SQL related to question number 264?

- A) Option A for question 264
- B) Option B for question 264
- C) Option C for question 264
- D) Option D for question 264

Answer: A

Q: What is an important concept in DBMS related to question number 265?

- A) Option A for question 265
- B) Option B for question 265
- C) Option C for question 265
- D) Option D for question 265

Answer: C

Q: What is an important concept in OOPs related to question number 266?

- A) Option A for question 266
- B) Option B for question 266
- C) Option C for question 266
- D) Option D for question 266

Answer: C

Q: What is an important concept in Operating System related to question number 267?

- A) Option A for question 267
- B) Option B for question 267
- C) Option C for question 267
- D) Option D for question 267

Answer: B

Q: What is an important concept in DBMS related to question number 268?

- A) Option A for question 268
- B) Option B for question 268
- C) Option C for question 268
- D) Option D for question 268

Answer: C

Q: What is an important concept in Data Structures related to question number 269?

- A) Option A for question 269
- B) Option B for question 269
- C) Option C for question 269
- D) Option D for question 269

Answer: D

Q: What is an important concept in DBMS related to question number 270?

- A) Option A for question 270
- B) Option B for question 270

C) Option C for question 270  
D) Option D for question 270  
Answer: A

Q: What is an important concept in DBMS related to question number 271?  
A) Option A for question 271  
B) Option B for question 271  
C) Option C for question 271  
D) Option D for question 271  
Answer: D

Q: What is an important concept in Computer Networks related to question number 272?  
A) Option A for question 272  
B) Option B for question 272  
C) Option C for question 272  
D) Option D for question 272  
Answer: B

Q: What is an important concept in Computer Networks related to question number 273?  
A) Option A for question 273  
B) Option B for question 273  
C) Option C for question 273  
D) Option D for question 273  
Answer: A

Q: What is an important concept in Computer Networks related to question number 274?  
A) Option A for question 274  
B) Option B for question 274  
C) Option C for question 274  
D) Option D for question 274  
Answer: B

Q: What is an important concept in Data Structures related to question number 275?  
A) Option A for question 275  
B) Option B for question 275  
C) Option C for question 275  
D) Option D for question 275  
Answer: A

Q: What is an important concept in Operating System related to question number 276?  
A) Option A for question 276  
B) Option B for question 276  
C) Option C for question 276  
D) Option D for question 276  
Answer: B

Q: What is an important concept in Operating System related to question number 277?  
A) Option A for question 277  
B) Option B for question 277  
C) Option C for question 277  
D) Option D for question 277  
Answer: C

Q: What is an important concept in Python related to question number 278?  
A) Option A for question 278  
B) Option B for question 278  
C) Option C for question 278  
D) Option D for question 278  
Answer: A

Q: What is an important concept in Computer Networks related to question number 279?  
A) Option A for question 279  
B) Option B for question 279  
C) Option C for question 279  
D) Option D for question 279  
Answer: D

Q: What is an important concept in Software Engineering related to question number 280?  
A) Option A for question 280  
B) Option B for question 280  
C) Option C for question 280  
D) Option D for question 280  
Answer: A

Q: What is an important concept in Data Structures related to question number 281?  
A) Option A for question 281  
B) Option B for question 281  
C) Option C for question 281  
D) Option D for question 281  
Answer: A

Q: What is an important concept in DBMS related to question number 282?

- A) Option A for question 282
- B) Option B for question 282
- C) Option C for question 282
- D) Option D for question 282

Answer: D

Q: What is an important concept in Java related to question number 283?

- A) Option A for question 283
- B) Option B for question 283
- C) Option C for question 283
- D) Option D for question 283

Answer: B

Q: What is an important concept in OOPs related to question number 284?

- A) Option A for question 284
- B) Option B for question 284
- C) Option C for question 284
- D) Option D for question 284

Answer: A

Q: What is an important concept in Java related to question number 285?

- A) Option A for question 285
- B) Option B for question 285
- C) Option C for question 285
- D) Option D for question 285

Answer: A

Q: What is an important concept in Computer Networks related to question number 286?

- A) Option A for question 286
- B) Option B for question 286
- C) Option C for question 286
- D) Option D for question 286

Answer: B

Q: What is an important concept in DBMS related to question number 287?

- A) Option A for question 287
- B) Option B for question 287
- C) Option C for question 287
- D) Option D for question 287

Answer: A

Q: What is an important concept in SQL related to question number 288?

- A) Option A for question 288
- B) Option B for question 288
- C) Option C for question 288
- D) Option D for question 288

Answer: D

Q: What is an important concept in SQL related to question number 289?

- A) Option A for question 289
- B) Option B for question 289
- C) Option C for question 289
- D) Option D for question 289

Answer: C

Q: What is an important concept in DBMS related to question number 290?

- A) Option A for question 290
- B) Option B for question 290
- C) Option C for question 290
- D) Option D for question 290

Answer: A

Q: What is an important concept in HTML related to question number 291?

- A) Option A for question 291
- B) Option B for question 291
- C) Option C for question 291
- D) Option D for question 291

Answer: B

Q: What is an important concept in Data Structures related to question number 292?

- A) Option A for question 292
- B) Option B for question 292
- C) Option C for question 292
- D) Option D for question 292

Answer: B

Q: What is an important concept in Python related to question number 293?

- A) Option A for question 293
- B) Option B for question 293
- C) Option C for question 293
- D) Option D for question 293

Answer: C

Q: What is an important concept in Operating System related to question number 294?

- A) Option A for question 294
- B) Option B for question 294
- C) Option C for question 294
- D) Option D for question 294

Answer: A

Q: What is an important concept in OOPs related to question number 295?

- A) Option A for question 295
- B) Option B for question 295
- C) Option C for question 295
- D) Option D for question 295

Answer: D

Q: What is an important concept in OOPs related to question number 296?

- A) Option A for question 296
- B) Option B for question 296
- C) Option C for question 296
- D) Option D for question 296

Answer: B

Q: What is an important concept in Data Structures related to question number 297?

- A) Option A for question 297
- B) Option B for question 297
- C) Option C for question 297
- D) Option D for question 297

Answer: B

Q: What is an important concept in DBMS related to question number 298?

- A) Option A for question 298
- B) Option B for question 298
- C) Option C for question 298
- D) Option D for question 298

Answer: C

Q: What is an important concept in Computer Networks related to question number 299?

- A) Option A for question 299
- B) Option B for question 299
- C) Option C for question 299
- D) Option D for question 299

Answer: A

Q: What is an important concept in Data Structures related to question number 300?

- A) Option A for question 300
- B) Option B for question 300
- C) Option C for question 300
- D) Option D for question 300

Answer: A

Q: What is an important concept in SQL related to question number 301?

- A) Option A for question 301
- B) Option B for question 301
- C) Option C for question 301
- D) Option D for question 301

Answer: D

Q: What is an important concept in DBMS related to question number 302?

- A) Option A for question 302
- B) Option B for question 302
- C) Option C for question 302
- D) Option D for question 302

Answer: C

Q: What is an important concept in HTML related to question number 303?

- A) Option A for question 303
- B) Option B for question 303
- C) Option C for question 303
- D) Option D for question 303

Answer: A

Q: What is an important concept in HTML related to question number 304?

- A) Option A for question 304
- B) Option B for question 304
- C) Option C for question 304
- D) Option D for question 304

Answer: A

Q: What is an important concept in Computer Networks related to question number 305?

- A) Option A for question 305
- B) Option B for question 305
- C) Option C for question 305

D) Option D for question 305  
Answer: C

Q: What is an important concept in Software Engineering related to question number 306?  
A) Option A for question 306  
B) Option B for question 306  
C) Option C for question 306  
D) Option D for question 306  
Answer: A

Q: What is an important concept in Data Structures related to question number 307?  
A) Option A for question 307  
B) Option B for question 307  
C) Option C for question 307  
D) Option D for question 307  
Answer: B

Q: What is an important concept in DBMS related to question number 308?  
A) Option A for question 308  
B) Option B for question 308  
C) Option C for question 308  
D) Option D for question 308  
Answer: B

Q: What is an important concept in Data Structures related to question number 309?  
A) Option A for question 309  
B) Option B for question 309  
C) Option C for question 309  
D) Option D for question 309  
Answer: A

Q: What is an important concept in Python related to question number 310?  
A) Option A for question 310  
B) Option B for question 310  
C) Option C for question 310  
D) Option D for question 310  
Answer: C

Q: What is an important concept in DBMS related to question number 311?  
A) Option A for question 311  
B) Option B for question 311  
C) Option C for question 311  
D) Option D for question 311  
Answer: C

Q: What is an important concept in Operating System related to question number 312?  
A) Option A for question 312  
B) Option B for question 312  
C) Option C for question 312  
D) Option D for question 312  
Answer: A

Q: What is an important concept in Data Structures related to question number 313?  
A) Option A for question 313  
B) Option B for question 313  
C) Option C for question 313  
D) Option D for question 313  
Answer: B

Q: What is an important concept in Data Structures related to question number 314?  
A) Option A for question 314  
B) Option B for question 314  
C) Option C for question 314  
D) Option D for question 314  
Answer: C

Q: What is an important concept in OOPs related to question number 315?  
A) Option A for question 315  
B) Option B for question 315  
C) Option C for question 315  
D) Option D for question 315  
Answer: B

Q: What is an important concept in OOPs related to question number 316?  
A) Option A for question 316  
B) Option B for question 316  
C) Option C for question 316  
D) Option D for question 316  
Answer: B

Q: What is an important concept in SQL related to question number 317?  
A) Option A for question 317

B) Option B for question 317  
C) Option C for question 317  
D) Option D for question 317  
Answer: C

Q: What is an important concept in Java related to question number 318?  
A) Option A for question 318  
B) Option B for question 318  
C) Option C for question 318  
D) Option D for question 318  
Answer: D

Q: What is an important concept in Java related to question number 319?  
A) Option A for question 319  
B) Option B for question 319  
C) Option C for question 319  
D) Option D for question 319  
Answer: A

Q: What is an important concept in Python related to question number 320?  
A) Option A for question 320  
B) Option B for question 320  
C) Option C for question 320  
D) Option D for question 320  
Answer: B

Q: What is an important concept in SQL related to question number 321?  
A) Option A for question 321  
B) Option B for question 321  
C) Option C for question 321  
D) Option D for question 321  
Answer: A

Q: What is an important concept in DBMS related to question number 322?  
A) Option A for question 322  
B) Option B for question 322  
C) Option C for question 322  
D) Option D for question 322  
Answer: C

Q: What is an important concept in OOPs related to question number 323?  
A) Option A for question 323  
B) Option B for question 323  
C) Option C for question 323  
D) Option D for question 323  
Answer: A

Q: What is an important concept in OOPs related to question number 324?  
A) Option A for question 324  
B) Option B for question 324  
C) Option C for question 324  
D) Option D for question 324  
Answer: C

Q: What is an important concept in Python related to question number 325?  
A) Option A for question 325  
B) Option B for question 325  
C) Option C for question 325  
D) Option D for question 325  
Answer: A

Q: What is an important concept in Java related to question number 326?  
A) Option A for question 326  
B) Option B for question 326  
C) Option C for question 326  
D) Option D for question 326  
Answer: A

Q: What is an important concept in HTML related to question number 327?  
A) Option A for question 327  
B) Option B for question 327  
C) Option C for question 327  
D) Option D for question 327  
Answer: C

Q: What is an important concept in Python related to question number 328?  
A) Option A for question 328  
B) Option B for question 328  
C) Option C for question 328  
D) Option D for question 328  
Answer: C

Q: What is an important concept in Python related to question number 329?

- A) Option A for question 329
- B) Option B for question 329
- C) Option C for question 329
- D) Option D for question 329

Answer: C

Q: What is an important concept in Software Engineering related to question number 330?

- A) Option A for question 330
- B) Option B for question 330
- C) Option C for question 330
- D) Option D for question 330

Answer: D

Q: What is an important concept in Data Structures related to question number 331?

- A) Option A for question 331
- B) Option B for question 331
- C) Option C for question 331
- D) Option D for question 331

Answer: B

Q: What is an important concept in Operating System related to question number 332?

- A) Option A for question 332
- B) Option B for question 332
- C) Option C for question 332
- D) Option D for question 332

Answer: C

Q: What is an important concept in SQL related to question number 333?

- A) Option A for question 333
- B) Option B for question 333
- C) Option C for question 333
- D) Option D for question 333

Answer: D

Q: What is an important concept in SQL related to question number 334?

- A) Option A for question 334
- B) Option B for question 334
- C) Option C for question 334
- D) Option D for question 334

Answer: A

Q: What is an important concept in HTML related to question number 335?

- A) Option A for question 335
- B) Option B for question 335
- C) Option C for question 335
- D) Option D for question 335

Answer: B

Q: What is an important concept in Software Engineering related to question number 336?

- A) Option A for question 336
- B) Option B for question 336
- C) Option C for question 336
- D) Option D for question 336

Answer: D

Q: What is an important concept in Python related to question number 337?

- A) Option A for question 337
- B) Option B for question 337
- C) Option C for question 337
- D) Option D for question 337

Answer: D

Q: What is an important concept in Computer Networks related to question number 338?

- A) Option A for question 338
- B) Option B for question 338
- C) Option C for question 338
- D) Option D for question 338

Answer: A

Q: What is an important concept in Data Structures related to question number 339?

- A) Option A for question 339
- B) Option B for question 339
- C) Option C for question 339
- D) Option D for question 339

Answer: C

Q: What is an important concept in Software Engineering related to question number 340?

- A) Option A for question 340
- B) Option B for question 340
- C) Option C for question 340
- D) Option D for question 340

Answer: C

Q: What is an important concept in DBMS related to question number 341?

- A) Option A for question 341
- B) Option B for question 341
- C) Option C for question 341
- D) Option D for question 341

Answer: C

Q: What is an important concept in Computer Networks related to question number 342?

- A) Option A for question 342
- B) Option B for question 342
- C) Option C for question 342
- D) Option D for question 342

Answer: A

Q: What is an important concept in Java related to question number 343?

- A) Option A for question 343
- B) Option B for question 343
- C) Option C for question 343
- D) Option D for question 343

Answer: B

Q: What is an important concept in Data Structures related to question number 344?

- A) Option A for question 344
- B) Option B for question 344
- C) Option C for question 344
- D) Option D for question 344

Answer: C

Q: What is an important concept in Computer Networks related to question number 345?

- A) Option A for question 345
- B) Option B for question 345
- C) Option C for question 345
- D) Option D for question 345

Answer: C

Q: What is an important concept in Operating System related to question number 346?

- A) Option A for question 346
- B) Option B for question 346
- C) Option C for question 346
- D) Option D for question 346

Answer: B

Q: What is an important concept in Computer Networks related to question number 347?

- A) Option A for question 347
- B) Option B for question 347
- C) Option C for question 347
- D) Option D for question 347

Answer: C

Q: What is an important concept in Data Structures related to question number 348?

- A) Option A for question 348
- B) Option B for question 348
- C) Option C for question 348
- D) Option D for question 348

Answer: D

Q: What is an important concept in Data Structures related to question number 349?

- A) Option A for question 349
- B) Option B for question 349
- C) Option C for question 349
- D) Option D for question 349

Answer: A

Q: What is an important concept in Java related to question number 350?

- A) Option A for question 350
- B) Option B for question 350
- C) Option C for question 350
- D) Option D for question 350

Answer: A

Q: What is an important concept in Python related to question number 351?

- A) Option A for question 351
- B) Option B for question 351
- C) Option C for question 351
- D) Option D for question 351

Answer: C

Q: What is an important concept in Data Structures related to question number 352?

- A) Option A for question 352
- B) Option B for question 352

C) Option C for question 352  
D) Option D for question 352  
Answer: B

Q: What is an important concept in DBMS related to question number 353?  
A) Option A for question 353  
B) Option B for question 353  
C) Option C for question 353  
D) Option D for question 353  
Answer: B

Q: What is an important concept in SQL related to question number 354?  
A) Option A for question 354  
B) Option B for question 354  
C) Option C for question 354  
D) Option D for question 354  
Answer: D

Q: What is an important concept in Computer Networks related to question number 355?  
A) Option A for question 355  
B) Option B for question 355  
C) Option C for question 355  
D) Option D for question 355  
Answer: A

Q: What is an important concept in Computer Networks related to question number 356?  
A) Option A for question 356  
B) Option B for question 356  
C) Option C for question 356  
D) Option D for question 356  
Answer: A

Q: What is an important concept in DBMS related to question number 357?  
A) Option A for question 357  
B) Option B for question 357  
C) Option C for question 357  
D) Option D for question 357  
Answer: D

Q: What is an important concept in DBMS related to question number 358?  
A) Option A for question 358  
B) Option B for question 358  
C) Option C for question 358  
D) Option D for question 358  
Answer: C

Q: What is an important concept in Python related to question number 359?  
A) Option A for question 359  
B) Option B for question 359  
C) Option C for question 359  
D) Option D for question 359  
Answer: D

Q: What is an important concept in HTML related to question number 360?  
A) Option A for question 360  
B) Option B for question 360  
C) Option C for question 360  
D) Option D for question 360  
Answer: C

Q: What is an important concept in DBMS related to question number 361?  
A) Option A for question 361  
B) Option B for question 361  
C) Option C for question 361  
D) Option D for question 361  
Answer: C

Q: What is an important concept in Operating System related to question number 362?  
A) Option A for question 362  
B) Option B for question 362  
C) Option C for question 362  
D) Option D for question 362  
Answer: D

Q: What is an important concept in Java related to question number 363?  
A) Option A for question 363  
B) Option B for question 363  
C) Option C for question 363  
D) Option D for question 363  
Answer: D

Q: What is an important concept in Software Engineering related to question number 364?

A) Option A for question 364  
B) Option B for question 364  
C) Option C for question 364  
D) Option D for question 364  
Answer: C

Q: What is an important concept in Data Structures related to question number 365?  
A) Option A for question 365  
B) Option B for question 365  
C) Option C for question 365  
D) Option D for question 365  
Answer: A

Q: What is an important concept in Data Structures related to question number 366?  
A) Option A for question 366  
B) Option B for question 366  
C) Option C for question 366  
D) Option D for question 366  
Answer: B

Q: What is an important concept in Software Engineering related to question number 367?  
A) Option A for question 367  
B) Option B for question 367  
C) Option C for question 367  
D) Option D for question 367  
Answer: A

Q: What is an important concept in Computer Networks related to question number 368?  
A) Option A for question 368  
B) Option B for question 368  
C) Option C for question 368  
D) Option D for question 368  
Answer: B

Q: What is an important concept in Python related to question number 369?  
A) Option A for question 369  
B) Option B for question 369  
C) Option C for question 369  
D) Option D for question 369  
Answer: C

Q: What is an important concept in Operating System related to question number 370?  
A) Option A for question 370  
B) Option B for question 370  
C) Option C for question 370  
D) Option D for question 370  
Answer: A

Q: What is an important concept in Operating System related to question number 371?  
A) Option A for question 371  
B) Option B for question 371  
C) Option C for question 371  
D) Option D for question 371  
Answer: B

Q: What is an important concept in DBMS related to question number 372?  
A) Option A for question 372  
B) Option B for question 372  
C) Option C for question 372  
D) Option D for question 372  
Answer: A

Q: What is an important concept in HTML related to question number 373?  
A) Option A for question 373  
B) Option B for question 373  
C) Option C for question 373  
D) Option D for question 373  
Answer: B

Q: What is an important concept in Python related to question number 374?  
A) Option A for question 374  
B) Option B for question 374  
C) Option C for question 374  
D) Option D for question 374  
Answer: A

Q: What is an important concept in Data Structures related to question number 375?  
A) Option A for question 375  
B) Option B for question 375  
C) Option C for question 375  
D) Option D for question 375  
Answer: A

Q: What is an important concept in Python related to question number 376?

- A) Option A for question 376
- B) Option B for question 376
- C) Option C for question 376
- D) Option D for question 376

Answer: A

Q: What is an important concept in Software Engineering related to question number 377?

- A) Option A for question 377
- B) Option B for question 377
- C) Option C for question 377
- D) Option D for question 377

Answer: A

Q: What is an important concept in Software Engineering related to question number 378?

- A) Option A for question 378
- B) Option B for question 378
- C) Option C for question 378
- D) Option D for question 378

Answer: C

Q: What is an important concept in Computer Networks related to question number 379?

- A) Option A for question 379
- B) Option B for question 379
- C) Option C for question 379
- D) Option D for question 379

Answer: D

Q: What is an important concept in Operating System related to question number 380?

- A) Option A for question 380
- B) Option B for question 380
- C) Option C for question 380
- D) Option D for question 380

Answer: C

Q: What is an important concept in Software Engineering related to question number 381?

- A) Option A for question 381
- B) Option B for question 381
- C) Option C for question 381
- D) Option D for question 381

Answer: C

Q: What is an important concept in HTML related to question number 382?

- A) Option A for question 382
- B) Option B for question 382
- C) Option C for question 382
- D) Option D for question 382

Answer: B

Q: What is an important concept in SQL related to question number 383?

- A) Option A for question 383
- B) Option B for question 383
- C) Option C for question 383
- D) Option D for question 383

Answer: A

Q: What is an important concept in HTML related to question number 384?

- A) Option A for question 384
- B) Option B for question 384
- C) Option C for question 384
- D) Option D for question 384

Answer: A

Q: What is an important concept in Data Structures related to question number 385?

- A) Option A for question 385
- B) Option B for question 385
- C) Option C for question 385
- D) Option D for question 385

Answer: B

Q: What is an important concept in Data Structures related to question number 386?

- A) Option A for question 386
- B) Option B for question 386
- C) Option C for question 386
- D) Option D for question 386

Answer: C

Q: What is an important concept in Data Structures related to question number 387?

- A) Option A for question 387
- B) Option B for question 387
- C) Option C for question 387

D) Option D for question 387  
Answer: A

Q: What is an important concept in SQL related to question number 388?  
A) Option A for question 388  
B) Option B for question 388  
C) Option C for question 388  
D) Option D for question 388  
Answer: D

Q: What is an important concept in Software Engineering related to question number 389?  
A) Option A for question 389  
B) Option B for question 389  
C) Option C for question 389  
D) Option D for question 389  
Answer: C

Q: What is an important concept in Software Engineering related to question number 390?  
A) Option A for question 390  
B) Option B for question 390  
C) Option C for question 390  
D) Option D for question 390  
Answer: B

Q: What is an important concept in Python related to question number 391?  
A) Option A for question 391  
B) Option B for question 391  
C) Option C for question 391  
D) Option D for question 391  
Answer: B

Q: What is an important concept in Java related to question number 392?  
A) Option A for question 392  
B) Option B for question 392  
C) Option C for question 392  
D) Option D for question 392  
Answer: B

Q: What is an important concept in DBMS related to question number 393?  
A) Option A for question 393  
B) Option B for question 393  
C) Option C for question 393  
D) Option D for question 393  
Answer: B

Q: What is an important concept in SQL related to question number 394?  
A) Option A for question 394  
B) Option B for question 394  
C) Option C for question 394  
D) Option D for question 394  
Answer: D

Q: What is an important concept in Python related to question number 395?  
A) Option A for question 395  
B) Option B for question 395  
C) Option C for question 395  
D) Option D for question 395  
Answer: D

Q: What is an important concept in Computer Networks related to question number 396?  
A) Option A for question 396  
B) Option B for question 396  
C) Option C for question 396  
D) Option D for question 396  
Answer: D

Q: What is an important concept in HTML related to question number 397?  
A) Option A for question 397  
B) Option B for question 397  
C) Option C for question 397  
D) Option D for question 397  
Answer: D

Q: What is an important concept in SQL related to question number 398?  
A) Option A for question 398  
B) Option B for question 398  
C) Option C for question 398  
D) Option D for question 398  
Answer: A

Q: What is an important concept in Operating System related to question number 399?  
A) Option A for question 399

B) Option B for question 399  
C) Option C for question 399  
D) Option D for question 399  
Answer: B

Q: What is an important concept in Operating System related to question number 400?  
A) Option A for question 400  
B) Option B for question 400  
C) Option C for question 400  
D) Option D for question 400  
Answer: B

Q: What is an important concept in OOPs related to question number 401?  
A) Option A for question 401  
B) Option B for question 401  
C) Option C for question 401  
D) Option D for question 401  
Answer: D

Q: What is an important concept in Python related to question number 402?  
A) Option A for question 402  
B) Option B for question 402  
C) Option C for question 402  
D) Option D for question 402  
Answer: D

Q: What is an important concept in OOPs related to question number 403?  
A) Option A for question 403  
B) Option B for question 403  
C) Option C for question 403  
D) Option D for question 403  
Answer: A

Q: What is an important concept in Java related to question number 404?  
A) Option A for question 404  
B) Option B for question 404  
C) Option C for question 404  
D) Option D for question 404  
Answer: A

Q: What is an important concept in Python related to question number 405?  
A) Option A for question 405  
B) Option B for question 405  
C) Option C for question 405  
D) Option D for question 405  
Answer: C

Q: What is an important concept in Python related to question number 406?  
A) Option A for question 406  
B) Option B for question 406  
C) Option C for question 406  
D) Option D for question 406  
Answer: C

Q: What is an important concept in Computer Networks related to question number 407?  
A) Option A for question 407  
B) Option B for question 407  
C) Option C for question 407  
D) Option D for question 407  
Answer: A

Q: What is an important concept in Operating System related to question number 408?  
A) Option A for question 408  
B) Option B for question 408  
C) Option C for question 408  
D) Option D for question 408  
Answer: C

Q: What is an important concept in Data Structures related to question number 409?  
A) Option A for question 409  
B) Option B for question 409  
C) Option C for question 409  
D) Option D for question 409  
Answer: A

Q: What is an important concept in Python related to question number 410?  
A) Option A for question 410  
B) Option B for question 410  
C) Option C for question 410  
D) Option D for question 410  
Answer: A

Q: What is an important concept in Data Structures related to question number 411?

- A) Option A for question 411
- B) Option B for question 411
- C) Option C for question 411
- D) Option D for question 411

Answer: A

Q: What is an important concept in SQL related to question number 412?

- A) Option A for question 412
- B) Option B for question 412
- C) Option C for question 412
- D) Option D for question 412

Answer: B

Q: What is an important concept in Java related to question number 413?

- A) Option A for question 413
- B) Option B for question 413
- C) Option C for question 413
- D) Option D for question 413

Answer: C

Q: What is an important concept in Data Structures related to question number 414?

- A) Option A for question 414
- B) Option B for question 414
- C) Option C for question 414
- D) Option D for question 414

Answer: D

Q: What is an important concept in HTML related to question number 415?

- A) Option A for question 415
- B) Option B for question 415
- C) Option C for question 415
- D) Option D for question 415

Answer: C

Q: What is an important concept in SQL related to question number 416?

- A) Option A for question 416
- B) Option B for question 416
- C) Option C for question 416
- D) Option D for question 416

Answer: D

Q: What is an important concept in Software Engineering related to question number 417?

- A) Option A for question 417
- B) Option B for question 417
- C) Option C for question 417
- D) Option D for question 417

Answer: C

Q: What is an important concept in Python related to question number 418?

- A) Option A for question 418
- B) Option B for question 418
- C) Option C for question 418
- D) Option D for question 418

Answer: A

Q: What is an important concept in Software Engineering related to question number 419?

- A) Option A for question 419
- B) Option B for question 419
- C) Option C for question 419
- D) Option D for question 419

Answer: A

Q: What is an important concept in Data Structures related to question number 420?

- A) Option A for question 420
- B) Option B for question 420
- C) Option C for question 420
- D) Option D for question 420

Answer: C

Q: What is an important concept in Java related to question number 421?

- A) Option A for question 421
- B) Option B for question 421
- C) Option C for question 421
- D) Option D for question 421

Answer: A

Q: What is an important concept in Computer Networks related to question number 422?

- A) Option A for question 422
- B) Option B for question 422
- C) Option C for question 422
- D) Option D for question 422

Answer: D

Q: What is an important concept in DBMS related to question number 423?

- A) Option A for question 423
- B) Option B for question 423
- C) Option C for question 423
- D) Option D for question 423

Answer: A

Q: What is an important concept in Data Structures related to question number 424?

- A) Option A for question 424
- B) Option B for question 424
- C) Option C for question 424
- D) Option D for question 424

Answer: A

Q: What is an important concept in Java related to question number 425?

- A) Option A for question 425
- B) Option B for question 425
- C) Option C for question 425
- D) Option D for question 425

Answer: C

Q: What is an important concept in Operating System related to question number 426?

- A) Option A for question 426
- B) Option B for question 426
- C) Option C for question 426
- D) Option D for question 426

Answer: C

Q: What is an important concept in OOPs related to question number 427?

- A) Option A for question 427
- B) Option B for question 427
- C) Option C for question 427
- D) Option D for question 427

Answer: A

Q: What is an important concept in HTML related to question number 428?

- A) Option A for question 428
- B) Option B for question 428
- C) Option C for question 428
- D) Option D for question 428

Answer: C

Q: What is an important concept in Computer Networks related to question number 429?

- A) Option A for question 429
- B) Option B for question 429
- C) Option C for question 429
- D) Option D for question 429

Answer: B

Q: What is an important concept in DBMS related to question number 430?

- A) Option A for question 430
- B) Option B for question 430
- C) Option C for question 430
- D) Option D for question 430

Answer: A

Q: What is an important concept in Python related to question number 431?

- A) Option A for question 431
- B) Option B for question 431
- C) Option C for question 431
- D) Option D for question 431

Answer: C

Q: What is an important concept in SQL related to question number 432?

- A) Option A for question 432
- B) Option B for question 432
- C) Option C for question 432
- D) Option D for question 432

Answer: B

Q: What is an important concept in Operating System related to question number 433?

- A) Option A for question 433
- B) Option B for question 433
- C) Option C for question 433
- D) Option D for question 433

Answer: B

Q: What is an important concept in OOPs related to question number 434?

- A) Option A for question 434
- B) Option B for question 434

C) Option C for question 434  
D) Option D for question 434  
Answer: C

Q: What is an important concept in Software Engineering related to question number 435?  
A) Option A for question 435  
B) Option B for question 435  
C) Option C for question 435  
D) Option D for question 435  
Answer: B

Q: What is an important concept in Java related to question number 436?  
A) Option A for question 436  
B) Option B for question 436  
C) Option C for question 436  
D) Option D for question 436  
Answer: A

Q: What is an important concept in Computer Networks related to question number 437?  
A) Option A for question 437  
B) Option B for question 437  
C) Option C for question 437  
D) Option D for question 437  
Answer: A

Q: What is an important concept in Data Structures related to question number 438?  
A) Option A for question 438  
B) Option B for question 438  
C) Option C for question 438  
D) Option D for question 438  
Answer: B

Q: What is an important concept in Computer Networks related to question number 439?  
A) Option A for question 439  
B) Option B for question 439  
C) Option C for question 439  
D) Option D for question 439  
Answer: C

Q: What is an important concept in Software Engineering related to question number 440?  
A) Option A for question 440  
B) Option B for question 440  
C) Option C for question 440  
D) Option D for question 440  
Answer: B

Q: What is an important concept in Python related to question number 441?  
A) Option A for question 441  
B) Option B for question 441  
C) Option C for question 441  
D) Option D for question 441  
Answer: C

Q: What is an important concept in Python related to question number 442?  
A) Option A for question 442  
B) Option B for question 442  
C) Option C for question 442  
D) Option D for question 442  
Answer: A

Q: What is an important concept in Java related to question number 443?  
A) Option A for question 443  
B) Option B for question 443  
C) Option C for question 443  
D) Option D for question 443  
Answer: C

Q: What is an important concept in Software Engineering related to question number 444?  
A) Option A for question 444  
B) Option B for question 444  
C) Option C for question 444  
D) Option D for question 444  
Answer: C

Q: What is an important concept in Java related to question number 445?  
A) Option A for question 445  
B) Option B for question 445  
C) Option C for question 445  
D) Option D for question 445  
Answer: C

Q: What is an important concept in HTML related to question number 446?

- A) Option A for question 446
- B) Option B for question 446
- C) Option C for question 446
- D) Option D for question 446

Answer: B

Q: What is an important concept in HTML related to question number 447?

- A) Option A for question 447
- B) Option B for question 447
- C) Option C for question 447
- D) Option D for question 447

Answer: D

Q: What is an important concept in Computer Networks related to question number 448?

- A) Option A for question 448
- B) Option B for question 448
- C) Option C for question 448
- D) Option D for question 448

Answer: C

Q: What is an important concept in Data Structures related to question number 449?

- A) Option A for question 449
- B) Option B for question 449
- C) Option C for question 449
- D) Option D for question 449

Answer: D

Q: What is an important concept in Computer Networks related to question number 450?

- A) Option A for question 450
- B) Option B for question 450
- C) Option C for question 450
- D) Option D for question 450

Answer: B

Q: What is an important concept in DBMS related to question number 451?

- A) Option A for question 451
- B) Option B for question 451
- C) Option C for question 451
- D) Option D for question 451

Answer: D

Q: What is an important concept in SQL related to question number 452?

- A) Option A for question 452
- B) Option B for question 452
- C) Option C for question 452
- D) Option D for question 452

Answer: A

Q: What is an important concept in OOPs related to question number 453?

- A) Option A for question 453
- B) Option B for question 453
- C) Option C for question 453
- D) Option D for question 453

Answer: C

Q: What is an important concept in Python related to question number 454?

- A) Option A for question 454
- B) Option B for question 454
- C) Option C for question 454
- D) Option D for question 454

Answer: C

Q: What is an important concept in DBMS related to question number 455?

- A) Option A for question 455
- B) Option B for question 455
- C) Option C for question 455
- D) Option D for question 455

Answer: B

Q: What is an important concept in DBMS related to question number 456?

- A) Option A for question 456
- B) Option B for question 456
- C) Option C for question 456
- D) Option D for question 456

Answer: C

Q: What is an important concept in OOPs related to question number 457?

- A) Option A for question 457
- B) Option B for question 457
- C) Option C for question 457
- D) Option D for question 457

Answer: B

Q: What is an important concept in HTML related to question number 458?

- A) Option A for question 458
- B) Option B for question 458
- C) Option C for question 458
- D) Option D for question 458

Answer: C

Q: What is an important concept in OOPs related to question number 459?

- A) Option A for question 459
- B) Option B for question 459
- C) Option C for question 459
- D) Option D for question 459

Answer: A

Q: What is an important concept in Operating System related to question number 460?

- A) Option A for question 460
- B) Option B for question 460
- C) Option C for question 460
- D) Option D for question 460

Answer: C

Q: What is an important concept in Data Structures related to question number 461?

- A) Option A for question 461
- B) Option B for question 461
- C) Option C for question 461
- D) Option D for question 461

Answer: C

Q: What is an important concept in DBMS related to question number 462?

- A) Option A for question 462
- B) Option B for question 462
- C) Option C for question 462
- D) Option D for question 462

Answer: B

Q: What is an important concept in HTML related to question number 463?

- A) Option A for question 463
- B) Option B for question 463
- C) Option C for question 463
- D) Option D for question 463

Answer: C

Q: What is an important concept in Computer Networks related to question number 464?

- A) Option A for question 464
- B) Option B for question 464
- C) Option C for question 464
- D) Option D for question 464

Answer: C

Q: What is an important concept in Software Engineering related to question number 465?

- A) Option A for question 465
- B) Option B for question 465
- C) Option C for question 465
- D) Option D for question 465

Answer: C

Q: What is an important concept in OOPs related to question number 466?

- A) Option A for question 466
- B) Option B for question 466
- C) Option C for question 466
- D) Option D for question 466

Answer: B

Q: What is an important concept in Operating System related to question number 467?

- A) Option A for question 467
- B) Option B for question 467
- C) Option C for question 467
- D) Option D for question 467

Answer: D

Q: What is an important concept in SQL related to question number 468?

- A) Option A for question 468
- B) Option B for question 468
- C) Option C for question 468
- D) Option D for question 468

Answer: A

Q: What is an important concept in OOPs related to question number 469?

- A) Option A for question 469
- B) Option B for question 469
- C) Option C for question 469

D) Option D for question 469  
Answer: B

Q: What is an important concept in Software Engineering related to question number 470?  
A) Option A for question 470  
B) Option B for question 470  
C) Option C for question 470  
D) Option D for question 470  
Answer: C

Q: What is an important concept in SQL related to question number 471?  
A) Option A for question 471  
B) Option B for question 471  
C) Option C for question 471  
D) Option D for question 471  
Answer: C

Q: What is an important concept in HTML related to question number 472?  
A) Option A for question 472  
B) Option B for question 472  
C) Option C for question 472  
D) Option D for question 472  
Answer: B

Q: What is an important concept in Software Engineering related to question number 473?  
A) Option A for question 473  
B) Option B for question 473  
C) Option C for question 473  
D) Option D for question 473  
Answer: D

Q: What is an important concept in Computer Networks related to question number 474?  
A) Option A for question 474  
B) Option B for question 474  
C) Option C for question 474  
D) Option D for question 474  
Answer: D

Q: What is an important concept in Software Engineering related to question number 475?  
A) Option A for question 475  
B) Option B for question 475  
C) Option C for question 475  
D) Option D for question 475  
Answer: B

Q: What is an important concept in Computer Networks related to question number 476?  
A) Option A for question 476  
B) Option B for question 476  
C) Option C for question 476  
D) Option D for question 476  
Answer: D

Q: What is an important concept in Python related to question number 477?  
A) Option A for question 477  
B) Option B for question 477  
C) Option C for question 477  
D) Option D for question 477  
Answer: D

Q: What is an important concept in Operating System related to question number 478?  
A) Option A for question 478  
B) Option B for question 478  
C) Option C for question 478  
D) Option D for question 478  
Answer: B

Q: What is an important concept in DBMS related to question number 479?  
A) Option A for question 479  
B) Option B for question 479  
C) Option C for question 479  
D) Option D for question 479  
Answer: D

Q: What is an important concept in Python related to question number 480?  
A) Option A for question 480  
B) Option B for question 480  
C) Option C for question 480  
D) Option D for question 480  
Answer: C

Q: What is an important concept in Java related to question number 481?  
A) Option A for question 481

B) Option B for question 481  
C) Option C for question 481  
D) Option D for question 481  
Answer: A

Q: What is an important concept in Python related to question number 482?  
A) Option A for question 482  
B) Option B for question 482  
C) Option C for question 482  
D) Option D for question 482  
Answer: D

Q: What is an important concept in Java related to question number 483?  
A) Option A for question 483  
B) Option B for question 483  
C) Option C for question 483  
D) Option D for question 483  
Answer: B

Q: What is an important concept in SQL related to question number 484?  
A) Option A for question 484  
B) Option B for question 484  
C) Option C for question 484  
D) Option D for question 484  
Answer: C

Q: What is an important concept in Software Engineering related to question number 485?  
A) Option A for question 485  
B) Option B for question 485  
C) Option C for question 485  
D) Option D for question 485  
Answer: C

Q: What is an important concept in Java related to question number 486?  
A) Option A for question 486  
B) Option B for question 486  
C) Option C for question 486  
D) Option D for question 486  
Answer: A

Q: What is an important concept in SQL related to question number 487?  
A) Option A for question 487  
B) Option B for question 487  
C) Option C for question 487  
D) Option D for question 487  
Answer: A

Q: What is an important concept in HTML related to question number 488?  
A) Option A for question 488  
B) Option B for question 488  
C) Option C for question 488  
D) Option D for question 488  
Answer: B

Q: What is an important concept in Software Engineering related to question number 489?  
A) Option A for question 489  
B) Option B for question 489  
C) Option C for question 489  
D) Option D for question 489  
Answer: C

Q: What is an important concept in Operating System related to question number 490?  
A) Option A for question 490  
B) Option B for question 490  
C) Option C for question 490  
D) Option D for question 490  
Answer: B

Q: What is an important concept in Data Structures related to question number 491?  
A) Option A for question 491  
B) Option B for question 491  
C) Option C for question 491  
D) Option D for question 491  
Answer: B

Q: What is an important concept in Operating System related to question number 492?  
A) Option A for question 492  
B) Option B for question 492  
C) Option C for question 492  
D) Option D for question 492  
Answer: B

Q: What is an important concept in OOPs related to question number 493?

- A) Option A for question 493
- B) Option B for question 493
- C) Option C for question 493
- D) Option D for question 493

Answer: D

Q: What is an important concept in Operating System related to question number 494?

- A) Option A for question 494
- B) Option B for question 494
- C) Option C for question 494
- D) Option D for question 494

Answer: C

Q: What is an important concept in Java related to question number 495?

- A) Option A for question 495
- B) Option B for question 495
- C) Option C for question 495
- D) Option D for question 495

Answer: D

Q: What is an important concept in Computer Networks related to question number 496?

- A) Option A for question 496
- B) Option B for question 496
- C) Option C for question 496
- D) Option D for question 496

Answer: C

Q: What is an important concept in HTML related to question number 497?

- A) Option A for question 497
- B) Option B for question 497
- C) Option C for question 497
- D) Option D for question 497

Answer: C

Q: What is an important concept in Java related to question number 498?

- A) Option A for question 498
- B) Option B for question 498
- C) Option C for question 498
- D) Option D for question 498

Answer: B

Q: What is an important concept in Computer Networks related to question number 499?

- A) Option A for question 499
- B) Option B for question 499
- C) Option C for question 499
- D) Option D for question 499

Answer: B

Q: What is an important concept in Java related to question number 500?

- A) Option A for question 500
- B) Option B for question 500
- C) Option C for question 500
- D) Option D for question 500

Answer: A
